

IAM Developer / Consultant - One Identity (m/f/d)

We are seeking a **One Identity Developer / Consultant (m/f/d)** to join our team, playing a crucial role in advancing the field of Identity and Access Management (IAM). This position, **based in Spain**, offers a **(mostly) remote** and **hybrid working environment**, allowing you to contribute your expertise from any location in the country.

About the Role

As a One Identity Specialist you'll be diving into challenging projects, pushing the boundaries of IAM technology, and delivering cutting-edge solutions using One Identity Manager. Your role is pivotal in transforming our clients' IAM capabilities, ensuring security and efficiency are at the forefront of their operations.

What You'll Do

- Design and implement innovative **IAM solutions with One Identity Manager**
- Develop **tailored solution proposals** that put our customers at the forefront of IAM best practices
- Lead and oversee **customer projects** and be the **key expert** on all aspects of One Identity
- Customize and enhance the **One Identity Manager platform** to meet individual customer requirements
- Collaborate with a **team of dedicated experts to seamlessly integrate identity management solutions** into existing systems while **staying on top of the latest IT trends**
- Provide **expert-level technical support** and ensure diligent **maintenance for One Identity Manager implementations**

Your Skills & Requirements

- A degree in **Computer Science / related field** or **equivalent industry experience**
- Extensive **experience in the IAM solutions environment**, particularly with **One Identity Manager**
- Profound knowledge of **.NET programming, SQL, Windows, Active Directory, directory services, SAP R/3, and cloud technologies**
- A proactive approach to embracing **new trends and technologies**
- Excellent **problem-solving skills** and the ability to work in a **dynamic environment**
- **Residency in Spain** with **business-level** proficiency in both **Spanish and English**
